Product Description

Carolina Grapples SD68 Standard Duty Rake Grapple

440 lbs

The Standard Duty Rake Grapple is specifically designed for smaller tractors with 50 HP or less. The Standard Duty Rake Grapple is ideal for midsize tractors fitting the needs of most homeowners and small farms. It features a lighter design yet is sturdy and durable enough for the toughest jobs. The frame is constructed from A-36 steel with 4-inch square tubing and 3-inch OD round pipe. This grapple has dual top tines and cylinders that allow tight gripping power. It features 1-inch pins with grease fittings and bushings at all pivot points. . Our Rake Grapples are compatible with all skid steer style quick attachments.
