Product Description

Lane Shark LS4 Vertical Brush Cutter

\$5100

The Lanesark is \$4700, and there is a \$400 Freight charge.

Introducing the Lane Shark LS4—a revolutionary vertical brush cutter designed to transform your brush-clearing tasks into quick, effortless jobs. As a leading compact tractor brush cutter, it combines innovation and reliability to meet the demands of any challenging landscape.

The Lane Shark LS 4 is the only patented, multi-position brush cutter for tractors with a minimum weight of 3,000 lbs and a hydraulic flow range of 8.5-20gpm. Supported by a cutting diameter of 44", the LS4 can tackle overgrown vegetation and cut the time spent on brush clearing jobs by more than half, and a wide range of cutting positions makes sure you get the job done right.

Capitalize on the versatility and precision of this front-mounted brush cutter for tractors, ensuring seamless performance even in the toughest environments. Choose the Lane Shark LS4 for a superior brush-cutting experience that optimizes efficiency and delivers exceptional results every time.
