Product Description

Kioti SL750 Skid Steer Loader Enclosed Cab

The KIOTI SL750-LQ cab skid steer loader is built for pros who need power and performance. Its enclosed cab offers comfort and visibility in any weather. With a strong engine and rugged build, it's ready for tough jobs—lifting, pushing, and powering through with ease. Compact and versatile, it gets the work done efficiently while keeping operators protected and comfortable all day long.

Proven KIOTI Diesel Engine

KIOTI skid steers utilize a powerful 74 horsepower KIOTI engine. Rely on the proven performance of the KIOTI engine to deliver consistent power and reliability, ensuring that you can tackle tough jobs with confidence, knowing that your equipment will deliver optimal performance and reliability.

Pilot Hydraulic Joystick Controls

KIOTI achieves smooth and precise operation through the hydraulic pilot joystick controls, offering intuitive and responsive handling of the machine's functions, enabling the operator to work with precision and finesse, even in tight spaces or during complex tasks. Fingertip controls also give the operator an easy way to control their attachment functions right from the joystick for smooth and effortless operation.

Flow+ Hydraulics (Flow+ Models)

Boost performance without breaking the budget. Flow+ Auxiliary Hydraulics delivers enhanced power for light to medium-duty tasks, providing an efficient and cost-effective alternative to traditional high-flow systems.

Standard Two-Speed Travel

Increased productivity with standard two-speed travel on the KIOTI SL750 allows operators to quickly transition between low-speed precision and power and high-speed transport.
